

vkcv::gui::GUI::beginGUI

vkcv::gui::GUI::GUI

vkcv::Swapchain::getImage
Count

```
graph LR; A[vkcv::gui::GUI::beginGUI] --> C[vkcv::Swapchain::getImageCount]; B[vkcv::gui::GUI::GUI] --> C;
```

The diagram illustrates a function call relationship. On the left, two white rectangular boxes with black borders contain the function names 'vkcv::gui::GUI::beginGUI' (top) and 'vkcv::gui::GUI::GUI' (bottom). On the right, a gray rectangular box with a black border contains the function name 'vkcv::Swapchain::getImageCount'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both 'beginGUI' and 'GUI' functions call 'getImageCount'.
